THERE years ago, in August, 1882, M. his own industry and genius of which he MARSH, then Administrator of the Colony and his friends might well be proud. appointed a Commission consisting of the Chief Justice, the Puisne Judge, the Attorney. General, the Acting Colonial Secretary, the Registrar of the Supreme Court, the Crown Solicitor, and one local Barrister to prepare and report upon drafts for a revised edition of our local Ordinances and for amendments of the same, incor porating the results of such recent Imperial legislation as might appear applicable to the circumstances of the Colony and providing for improved procedure in the administration of justice. Nothing more was publicly heard of this Commission until a suspended. few days ago, when a Government notification appeared appointing, in place of the Puisse Judge and Crown Solicitor, both absent on leave, the Colonial Treasurer and the Acting Registrar of the Supreme Court as members of the Commission. This noti fication may be considered as an indication that the Government have called upon the members of the Commission to basten on the completion of the important work entrusted to their hauds, and that the public may soon have some evidence before them that the long needed operation of reducing the chaotic mass of our Ordinances and Amendment Ordinances to something like order is really in various directions. A Chancellor may have strong views as to the necessity of the fusion of law and equity, of the consolidation of our statues and codification of our common law, and he may even set energetically to work to secure himself perennial reputation as a reforming jurist, but by the time he has worked out a scheme and nearly matured it for publication, a political crisis arrives, he is turned out of office, and his encessor, belonging to a different political party, holds different viewsas to law reform or does not care to follow the lead of a political enemy, and the work of reform is dropped and relegated for the disonssion of some . STEUCK OIL AT THE CITY HALL.

There was another very good audience at the City Hall Theatre on Tuesday evening, when the Mascotte Opera Company took a new departure, performing the American comedy drama "Struck Oil" in the place of an opera such as they have hitherto given. . The play is new to us, and it was probably so to nearly the whole audience present, but we have been informed that a good many years ago it created a great sensation in the United States, where audiences have sat, a great number of them afternately in tears and laughter at the alternating lights and shadows of fun and pathos which succeed each other. However, other times other manners, for though all the members of the company who took part in the play acquitted themselves in a very creditable manner, the thing went on the whole somewhat flatly. There are a great number of productions of this kind which in their day have met with great success, but they are productions of the hour, and a succeeding generation looks upon them with coldness. Some parts caused a good deal of amusement, but the audience was of the wrong kind to be much affected

by the pathetic parts. As we have said, the but that of either drifting into a chaos of cou- characters were all very well filled, and it was evident the Company is well able to acquit themselves eatisfactorily in the legitimate drama. WHAT OFFICIAL STEAMSHIP COM-

PETITION IS COMING TO. The competition now being carried on by were to leave Kobe at the same hour. The Kiodo steamer began the battle with an offer of 15 per cent. discount on passage money, capped by an offer of 20 per cent. by the Mitsu Bishi, and His Highn as assumed the sovereign title of instantly responded to by a proposal of 25 per Sultan. cent. by the Kiedo. Thirty per cent. is said to The be the discount on passage money raling in Yokohama. Responsibility for this competition is disclaimed by one of the companies concerned; and the runners for passengers are charged with having at their own risk instituted a declining scale of rates. This assertion is worthless. The runners, we may safely assume, would not lower the prices they were themselves obliged to pay for DEFENCE OF THE AUSTRALASIAN ekets; unless their commission was sufficiently large to permit a margin on the resale of 30 to 35 per cent., in which case the sooner these most objectionable persons are dispensed with and the sale of tickets confined to central stations on the companies' sole account, the better for everybody. As the matter stands, no one will accept the disclaimer; the acts of runners are regarded as the acts of the companies; and on this assump; tion the comments following are based.

When we consider the large share, the preponderating interest, the government possess in the Kiodo Unyu Kwaisha, the official control exercised, the declarations gratuitously made di- get Hobart and Tasmania with its attachments rectly by the company and indirectly by government organs, both Japanese and foreign, that competition with the Mitsu Bishi was not contemplated, these unseemly wrangles reflect very gravely, and unplessantly upon the government responsible for them. The Mitsu Bishi, finding the trade it has been mainly instrumental in making invaded by a company the bulk of whose losses must fall upon the national treasury, is at once in the position of a private individual forced into competition with the government in defiance of all the promises and agreements of the latter and as a matter of course public sympathy is extended to that company and wholly withdrawn from the Kiedo Unyu Kwaisha. If the government are resolved to keep up the competition now so enorgetically commenced, they can eventually drive the Mitsu Bishi off the poast trails altogether; but every body knows the cost and the folly of the suicidal proceeding; and err estimate very accurately the revenge the Kindo will take in recouping past losses when which the incapable men responsible for the squarron. situation have little notion.

of placing some check upon it, we yet maintain, from ships, particularly when rifle-pits and with all deference to the members of the Imperial | treaches have been made and the position studied Government still extending their approval and | beforehand. countenance to the rival company, that the course pursued is radically unsound, unwise, and calcusensible men must argue that if the Mitsu Bishi is to be supplanted by the Kicdo, the trading of property, and a stern refusal to yield may public will be subjected to the rule of a company short-of a million yen a year, part, if not all of needs. which, must be defrayed by a people in sore dis-tress, or collected hereafter from those unfortunate persons compelled to rely upon sea carriage for the maintenance of the little trade they enjoy: and in addition to this grievous burden, a well ordered and organized company is to be and a lot far worse than paragraph 11. supplanted by another which is virtually without a head, has issued an appeal for help to the Government, and is considering the coal and other stores necessary for the mainadvisability of suppressing the report of the next half-yearly meeting and publication of count lost, it is fair to assume, the increased difficulties of the position should become known and as a natural consequence they are not well disposed to a change which means, without doubt, that the losses of the shareholders and the Government arising out of the disastrous and illadvised speculation in steamships, are to be repaid by shippers of cargo when the Kiedo has them in its tender clutches. What other inference is to be drawn by the public than that the Government, in thus openly engaging in a ruinons competition, have for an object to drive the Mitsu Bishi out of the field; and so extinguish or lessen the valuable results of an en' -prise which is still one of the best attempts tional improvement inaugurated by H. THE DISPUTE IN THE FOOCHOW TEA TRADE.

FROM OUR OWN CORDESPONDENT. FOOCHOW, 19th June. The dispute between the Teamon and Foreign Merchants has at last been satisfactorily settled and seemingly in a way fair to both parties. The origin of the dispute arose from a circular issued by Tea Guild, in which they asked or insisted that business this season should be carried on on terms which were a little too much

for the "haughty Foreigner," so the reply was a counter demand very much against the "poor ill-used Native Trader. The real cause of the whole thing was this. Several firms who annually purchase aggreat quantity of tes had taken advantage of the old ctyle of doing business to weigh in a manner so as to give them a clear gain of 4, 5, and even 6 per cent: in weight and at this the Chinese winked, as it kept up the nominal price of the article. For instance, a small buyer wishing to have a chop or two, just to look in, finds the price of Panyongs Tls. 14; and after bidding Tls. 13, Tls. 131, and Tls. 132 in vain, sees them all. slipping away at a reported price of Tls. 14, and so gives that price; thus paying unwittingly 4, 5, or 6 per cent. more than his neighbour. At last this came out and everyone in his own defence

merrily bumped the scale so as at last to claim the actention of honest John Chinaman. The new system of weights is calculated to put all on the same footing and to save the loss in weight on shipments to London, calculated in persons unknown. the old tables at 3 per cent. and caused by the manner in which tens are weighed by the Customs in London and the allowance of 11b. draft per package to the trade.

The present agreement has not been arrived at without considerable opposition from native (i.s. Fokien) teamen, and the walls of the Canton Joss House were for a day or two embellished with some of the choicest abuse the Chinese language allows of, some epithets being quite original and ingenious and well worthy of the attention of any of our sinologues who are compiling a Chinese slang dictionary. Our tes market was opened yesterday, and prices seem to suit the heathen, as they are
